Department of Corrections medical staff reports that currently there are five inmates (out of 5001) who have been diagnosed with HIV/AIDS, and none of these inmates are incarcerated for a sexual crime. Medical staff also reports that there are about four to five additional inmates who often are booked and released from Alaska correctional facilities on minor charges or for a non-criminal hold (Title 47) who have been diagnosed with HIV/AIDS, but again none are sex offenders. Based on the information available, it is difficult for the department to predict with any accuracy if a case may arise that may be impacted by the changes contained in the legislation. But, it is estimated that the impact will be minimal due to the very small number of total HIV/AIDS cases. Therefore, the Department of Corrections does not anticipate a significant fiscal impact due to the passage of this legislation.
